Introduction

“... Each college has slightly different definitions and processes for the programs that they have established for students to earn college credits, certificates, and/or degrees while in high school. To support program and enrollment growth across the district, the dual & concurrent enrollment transition teams were formed by each college and at the district office. The first objective of these teams was to create a report that each college and the district would use to:

- 1) Evaluate the history and status of each program
- 2) Project anticipated outcomes for the upcoming school year
- 3) Identify areas of strength
- 4) Clarify opportunities for improvement and growth
- 5) Set internal and districtwide goals for a two-year growth plan”

KCCCD Opportunities & Needs

Opportunities	Needs
Streamline Dual & Concurrent Enrollment Processes	<ul style="list-style-type: none"> • Create districtwide definitions of terms/programs (dual enrollment, concurrent enrollment, & early college) • DualEnroll.com implementation at Cerro Coso and Porterville and integration with Banner
Marketing & Resource Development	<ul style="list-style-type: none"> • Updated college and district websites • New digital and print marketing resources to showcase the opportunities at each college by high school • Updated handbooks and resources for students, parents, administrators, and instructors.
Partnership Agreement Improvements	<ul style="list-style-type: none"> • An addendum for the existing Dual Enrollment MOU that enables the college and high school district partners to share necessary student information. • A plan to pilot CCAP Agreements with one district partner per college, and then scale up to include additional partners.
Expand Dual Enrollment, Concurrent Enrollment, & “Early College” Pathways	<ul style="list-style-type: none"> • Collaborate with high school partners to evaluate current and future course offerings and find opportunity to scale up to certificate or degree completion pathways. <ul style="list-style-type: none"> • There is a need for high school teachers who meet the CCCC minimum qualifications. • Staffing to support high school student recruitment, onboarding, and retention. • Develop a process for evaluating dual enrollment courses.
Dual & Concurrent Enrollment for Adult Education Students	<ul style="list-style-type: none"> • Collaborate with college adult education teams to model dual and concurrent enrollment processes for adult education students after the existing processes for high school students. • Evaluate where there is need and opportunity for dual and concurrent enrollment courses at adult education sites.

Early College at Bakersfield College

Levels of Implementation When scaling up Early College in 2019, the Bakersfield College team defined three levels of early college implementation to guide all high school partners. Expanding from the dual enrollment courses they offered to complete college certificate and degree pathways for students on their campus. These levels are defined below.

Level 1: Exploration	Level 2: Installation	Level 3: Implementation
High schools that offer college courses on their campus.	High schools that select a cohort of students to complete a college degree or certificate on their campus.	High schools who put all incoming 9 th grade students on a pathway to earn between 9 and 60 units towards completing a college degree or certificate on their campus.

Title V- Health Science Early College Goals

Goal

Progress

Increase Health Science dual enrollment section count from 10 sections and 230 enrollments in Fall 2020 to 20 dual enrollment sections and 460 dual enrollments in Fall 2021.

22 Sections **(110% toward goal)**

471 Enrollments **(102% toward goal)**

Increase the number of first time declared Health Science majors from 572 enrolled in Fall 2020 to 652 first time students enrolled in Fall 2021

605 Student Headcount **(93% toward goal)**

Evaluate current Health Science at adult school locations to establish a baseline and identify opportunities, develop processes for dual and concurrent enrollment for adult school students seeking a high school diploma and increase online (credit and noncredit) health science opportunities and promotion for adult learners
